

The Power of Love

None of this fazes us because Jesus loves us.

“I’m absolutely convinced that nothing –
nothing living or dead, angelic or demonic, today or
tomorrow,
high or low, thinkable or unthinkable
-absolutely *nothing* can get between us and God’s love
because of the way that Jesus our Master has embraced us.

Romans 8:37-39

Albert Einstein is perhaps the most famous scientist in history. While working at a patent office, Einstein did some of the most creative, revolutionary work which changed our understanding of the universe (eg: $E=mc^2$). Yet, in spite of his monumental theories that continue to baffle the scientific community, Einstein wrote the following to his daughter, Lieserl.

“When I proposed the theory of relativity, very few understood me, and what I will reveal now to transmit to mankind will also collide with the misunderstanding in the world.□ There is an **extremely powerful force** that, so far, science has not found a formal explanation to. It is a force that includes and governs all others, and is even behind any phenomenon operating in the universe and has not yet been identified by us. **This universal force is LOVE.**□ When scientists looked for a unified theory of the universe they forgot **this most powerful, unseen force.**

The apostle John, the one of whom it was said: Jesus loved him (John 21:20) wrote: “*God is Love!*” (1 John 4:16)

“The greatest happiness of life is the conviction that we are loved; loved for ourselves, or rather, loved in spite of ourselves. You don’t love a woman because she is beautiful, but she is beautiful because you love her. Never underestimate the power of love.”
